## HOW TO FIGURE

**GAME-WINNING GOAL:** After the final score has been determined, the goal which leaves the winning Club one goal ahead of its opponent is the game-winning goal.

**GOALS-AGAINST AVERAGE:** Multiply goals allowed (GA) by 60 and divide by minutes played (MINS).

**PENALTY-KILLING PERCENTAGE:** Subtract total number of power-play goals allowed from total number of shorthanded situations to get total number of powerplays killed. Divide the total number of powerplays killed by the total number of shorthanded situations.

**PLUS-MINUS RATING:** A player receives a "plus" if he is on the ice when his Club scores an even-strength or shorthand goal. He receives a "minus" if he is on the ice for an even-strength or shorthand goal scored by the opposing Club. The difference in these numbers is considered the player's plus-minus statistic.

**POWER PLAY GOAL:** A goal scored by a Club while it has a manpower advantage due to an opponent's penalty. Following are some examples of what is and is not considered a powerplay goal:

- If a Club has an advantage on a minor penalty starting at 2:02 of the period and it scores at 4:02, the goal is not a powerplay goal.
- If a Club scores on a delayed penalty, the goal is not a powerplay goal.
- If a Club has an advantage due to a five-minute major or match penalty, that Club is always credited with having one more advantage than the number of power play goals it scores during that advantage, because the penalty does not expire. A new advantage begins after each power play goal. For example, if Team A scores three goals during a major penalty, it is credited with four advantages.
- If a Club is on a power play for any length of time, it's considered to have an advantage.
- If a minor penalty is incurred by a Club on a power play due to a major penalty, a new advantage is given to that Club when its minor penalty expires, provided the opponent's major penalty is still in effect.

**POWER PLAY PERCENTAGE:** Total number of power play goals divided by total number of powerplay opportunities.

**SAVE PERCENTAGE:** Subtract goals allowed (GA) from shots against (SA) to determine saves. Then divide saves by shots-against.

**SHOOTING PERCENTAGE:** Divide the number of goals scored by the number of shots taken.

**SHORTHAND GOAL:** A goal scored by a Club while it is at a manpower disadvantage. The same cases apply for shorthand as for power play goals, but in the opposite manner.

**SHOT ON GOAL:** If a player shoots the puck with the intention of scoring and if that shot would have gone in the net had the goaltender not stopped it, the shot is recorded as a "shot on goal".

**SHUTOUT:** If two goaltenders combine for a shutout, neither receives credit for the shutout. Instead it is recorded as a Club shutout.

\*\* **NOTE:** No individual skater/goaltender statistics apply for the shootout. \*\*

# HOCKEY OPS. GUIDELINES

## NHL ENTRY DRAFT

The order of selection among the Member Clubs in each season shall be determined in the following manner:

A composite of all Member Clubs shall be prepared by placing:

- i) First the Clubs which failed to qualify for the next preceding playoffs in the order of points earned by each of them in the regular schedule of the preceding season starting with the Club having the lowest points total and followed by the Club having the next lowest points total, and so forth.
- ii) The Clubs which participated in the next preceding playoffs (but had not been ranked first in their respective Divisions and had not won the Stanley Cup that season) in order of points earned by each of them in the regular schedule of the next preceding season starting with the Club having the lowest total points and followed by the Club having the next lowest total points, and so forth.
- iii) The Clubs which had been ranked first in their Divisions during the next preceding season (but had not won the Stanley Cup that season) in the order of points earned by each of them in the regular schedule of the next preceding season starting with the Club having the lowest total points and followed by the Club having the next lowest total points, and so forth.
- iv) The Stanley Cup winner shall select last, thus, positioning all Clubs on the list.

In the event of a tie for any position, such tie shall be resolved by application of the rules governing the determination of final League standings. The resulting list shall constitute the order of selection.

## ENTRY DRAFT PLAYER ELIGIBILITY

All players age 19 or older [(i) any player who will be age 18 on or before September 15 in the year in which such Entry Draft is held, or (ii) reaches his 19th birthday between September 16 and December 31, both dates included, next following Entry Draft, can attain eligibility by delivering to the League a written notice (Opt in Form) prior to the later of May 1, or seven (7) days following the date such player finishes competing on his team in the year in which such draft is to be held.] are eligible for claim in the Entry Draft, except:

- (i) A player on the Reserve List of a Club, other than as a try-out;
- (ii) A player who has been claimed in two prior Entry Drafts;
- (iii) A player who previously played in the League and became a free agent pursuant to the CBA;
- (iv) A player age 21 or older who had played hockey for at least one season in North America when he was age 18, 19 or 20.

## UNSIGNED DRAFT CHOICES

A player aged 18 or 19 who was selected in the first three rounds of the Entry Draft and who was not signed by his NHL Club may not be retained by the Club and must be returned to his junior Club no later than the day prior to the opening of the NHL regular season.

A player aged 18 or 19 who was selected in the fourth or subsequent rounds who has not been signed by his NHL Club

may not be retained by his Club and must be returned to his junior Club no later than the fourth day prior to the opening of the NHL regular season.

## ENTRY LEVEL PLAYERS

1. Players 18 through 21 years of age when signing their first contract must remain in the entry-level system for a period of three years; players age 22 and 23 when signing their first contract are in the entry level system for two years; while those age 24 when first under contract are in the entry level system for one year. Age is defined as the player's age on September 15 of the calendar year in which he signs the contract, regardless of his actual age on the date he signs such contract.
2. In the event that a signed 18 or 19-year-old player does not play a minimum of 10 NHL games (regular season and/or playoffs) in his first season under contract, the term of his player contract and his number of years in the entry level system will be extended for a period of one year. The exception to this is a 19-year-old player who turns 20 years of age between September 16 and December 31 in his first contract year.

In the event that a player signs his first contract at age 18 and has had his Player Contract extended for one season already, and such player does not play at least 10 NHL games (regular season and/or playoffs) in the second season under that player's Player Contract, then the term of his Player Contract and his number of years in the Entry Level System shall be extended for one additional year.

## 23-MAN ROSTER

There may be a maximum of 23 players on each Club's playing roster at any one time from the commencement of the NHL regular season through the trade deadline. Prior to the start of the season, each Club must submit to the NHL its "Opening Day Playing Roster" which shall be comprised of not more than 23 players. Each Club must have a roster of at least 20 players, composed of 18 skaters and two goaltenders. Players on Injured Reserve do not count in the 23-Man Roster limit.

## INJURED RESERVE LIST

In the event that a player is injured and a Club wishes to place him on the Injured Reserve List, the Club must follow these procedures.

1. A Club may place a player on the injured reserve list if such player is injured, disabled or ill and unable to perform his duties as a hockey player after having passed the Club's initial physical examination in that season.
2. A player who has an injury that renders him physically unable to play for a minimum of seven days after that date of the injury can be placed on the Club's Injured Reserve List. Once a player is placed on the injured reserve, the Club may replace said player on its NHL roster with another player. All determinations that a player has suffered an injury warranting injured reserve status must be made by the Club's medical staff and in accordance with the Club's medical standards.
3. A player placed on Injured Reserve is ineligible to compete in NHL games for a period of not less than seven days from the date of injury.

## HOCKEY OPS. GUIDELINES (CONT.)

4. Players on Injured Reserve may attend Club meetings and meals, travel with the Club and participate in practice sessions.
5. Players on Injured Reserve are prohibited from appearing in games, participating in pre-game warm-ups with their Clubs, or dressing in game uniforms on game days.
4. The rights granted to assign a player (who is otherwise required to clear waivers) to a minor NHL Club expire for any player, who, after clearing the waiver draft or regular-season waivers, is not sent to a minor NHL Club, or is recalled from a minor NHL Club (except on emergency recall) and remains on an NHL roster for 30 days cumulative or plays 10 NHL games cumulative.

### REGULAR SEASON WAIVERS

1. For the purposes of regular season waivers, the five-year exemption for an 18-year-old skater and four-year exemption for a 19-year-old skater are both reduced to three years commencing the first season that the 18 or 19-year-old plays in 11 NHL games or more. For the purposes of the waiver draft, these exemptions are both reduced to four years commencing the first season that the 18 or 19-year-old plays in 11 NHL games or more. The next two seasons, regardless of whether the skater plays any games in either season, shall count as the second and third years toward satisfying the exemption.
2. For purposes of regular season waivers, the six-year exemption for an 18-year-old goaltender and five-year exemption for a 19-year-old goaltender are both reduced to four years commencing the first season that the 18 or 19-year-old plays in 11 NHL games or more. For purposes of the waiver draft, these exemptions are both reduced to five years commencing the first season that the 18 or 19-year-old plays in 11 games or more. The next three seasons, regardless of whether the goalie plays any games in any season, shall count as the next three years toward satisfying the exemption.
3. The first season in which a player who is age 20 or older plays in one or more professional games shall constitute the first year for calculating the number of years he is exempt from waivers.

NOTE: Professional games include NHL regular season games, NHL playoff games, all minor league regular season and playoff games and any other professional games

### TIE-BREAKING PROCEDURES

At the conclusion of the regular season, the standing of the teams in each Conference shall be determined in accordance with the following priorities in the order listed:

- a) First place in each of the three (3) divisions seeded 1, 2, and 3.
- b) The higher number of points earned by the Club.
- c) The greater number of games won by the Club.
- d) The higher number of points earned in games against each other among two (2) or more Clubs having equal standing under priority (b) and (c) \*\*
- e) The greater differential between goals scored for and against by Clubs having equal standing under priority (d).

NOTE: For the purpose of determining standing under priority (d) for two or more tied Clubs that have not played an even number of games with one or more of the other tied Clubs, the first game played in the city that has the extra game (the "odd game") shall not be included. When more than two Clubs are tied, the percentage of available points earned in games among each other (and not including any "odd games") shall be used to determine standing.
